About the Exhibit

The Maritime Museum of BC cares for three vessels in its collections: *Tilikum*, *Dorothy*, and *Trekka*. Each of these vessels has deep roots in BC's coastal history and each carries her own stories of adventure and adversity. Two of the three vessels have had international adventures, with one completing a trip around the world. Though unique in many ways, including their materials and structure, all three vessels share one thing in common: they have all inspired generations of mariners in the Pacific Northwest.

Visit the Maritime Museum of BC to learn the stories of these three small crafts and what makes them all special.
